HAVE YOUR SAY

ON INTERMODAL LOGISTICS PARK NORTH RAIL FREIGHT INTERCHANGE (ILPN RFI)

We are currently seeking your views as part of our statutory consultation. This phase of consultation will run from **Tuesday 28 October until Tuesday 23 December 2025**.

Please let us know your views by reading our consultation material and completing a feedback form. All responses will be carefully considered alongside ongoing technical and environmental assessments.

Following the statutory consultation, we will carefully review all comments and insights provided by local communities, stakeholders and statutory bodies.

This feedback will help us:

- Refine the proposals
- Complete the Environmental Statement (ES)
- Address concerns
- Submit a well-informed Development Consent Order (DCO) application

A Consultation Report will be submitted as part of the DCO application, summarising the feedback received and detailing how it influenced the final project design.

The deadline for responses is 11:59pm on Tuesday 23 December 2025.

You can respond to this consultation by:

- Completing an online feedback questionnaire at https://ilpnorth.consultationonline.co.uk/feedback
- Downloading, printing and completing a feedback questionnaire and returning it to: Freepost ILP NORTH (no stamp needed)
- Writing to the project team at: Freepost ILP NORTH (no stamp needed)
- Emailing us at ilpnorth@consultationonline.co.uk

Thank you for taking part in our consultation.

ABOUT YOU

Personal information

Please provide your name and contact details below in order to authenticate this feedback form and so that we can keep you updated. If you are not comfortable providing us with your full contact details or do not wish to be kept up to date, please include your postcode as a minimum.

PRIVACY STATEMENT

Cavendish Consulting Limited ("Cavendish") acts on behalf of the project team to run public consultation activities.

By filling-in this form you are agreeing that Cavendish can hold and process your Personal Data in relation to this public consultation exercise.

Cavendish will share your Personal Data with the project team companies for planning evaluation purposes only.

Your Personal Data will not be used for any other purposes without your consent. Cavendish and the project team will use your Personal Data to:

 Send you updates about the project (where you provide us with your consent to do so). Cavendish and the project team will use your feedback to:

 Develop a Consultation Report (or similar document) about this public consultation that will be submitted to the planning authority or similar body; this will be a publicly available document. Your comments will be anonymous, and we will only identify you in these reports with your consent.

Are you happy for us to contact you to discuss your feedback in further detail?

TRAFFIC, ACCESS AND IMPACT ON THE LOCAL ROAD NETWORK

Q6. Please provide any comments regarding traffic, access, public transport and active travel in relation to

	ILPN RFI. We welcome your views on any specific local routes and locations along the transport network that are important to you.
	Alongside the main design, highway mitigation options are being considered following extensive discussion with the local highway authorities at St Helens Council, Wigan Council and Warrington Borough Council and National Highways. The options can be viewed in the Highway Mitigation Options Report. These potential improvements will seek to ensure that the road network can safely and efficiently support the project, while also improving travel for the wider community.
27.	Do you have any comments on the proposed Highway mitigation options?

ENVIRONMENTAL INFORMATION

o you have any comments on the methodology and/or preliminary environmental assessments in the Preliminary Environmental Information Report (PEIR)? Where possible, please specify the environmental opic area(s) you are commenting on.		Please make your comments in relation to each of the below topics where applicable.		
		Landscape and visual	Public rights of way	
		Ecology and biodiversity	Land quality and use	
		Air quality	Surface water and flood risk	
		Noise and light pollution	Climate change and reduction in carbon emissions	
		Archaeology and heritage	Other
